

## RenaissanceRe and Partners Open "StormStruck(TM)" at INNOVENTIONS at Epcot(R)

August 26, 2008

PEMBROKE, Bermuda--(BUSINESS WIRE)--Aug. 26, 2008--RenaissanceRe Holdings Ltd. (NYSE: RNR), its U.S. affiliate WeatherPredict Consulting Inc. and partners the Federal Alliance for Safe Homes, Inc. - FLASH(R), Simpson Strong-Tie and State Farm today opened "StormStruck: A Tale of Two Homes(TM)", a new exhibit at INNOVENTIONS at Epcot(R) at the Walt Disney World(R) Resort.

Visitors to "StormStruck(TM)" can now experience the power of a weather event, while learning how to make their homes safer from rain, hail, high winds, lightning and more, through exhilarating special effects and interactive audience participation. In addition, "StormStruck(TM)" includes a post-show information area to raise awareness about weather risks, mitigation research, and recommendations. "StormStruck: A Tale of Two Homes(TM)" is located in INNOVENTIONS East, in the heart of Epcot(R).

Neill Currie, President and CEO of RenaissanceRe Holdings Ltd., said: "Our goal has always been to offer innovative and creative solutions for the risks facing our clients and the communities they serve. Our participation in this exhibit at Epcot(R) allows us to meet this objective in an exciting new way. Through "StormStruck(TM)", we have a unique opportunity to inform many homeowners directly, in an impactful and entertaining way, about their weather-related risks and the mitigation methods available to them. We are proud to join our fellow sponsors in this ground-breaking initiative, which we believe will communicate to millions of people simple and effective ways to make their homes and families safer."

RenaissanceRe is committed to researching and developing risk mitigation techniques and raising awareness of the benefits of effective risk mitigation. The organization believes that fostering safer, more weather-resistant communities will not only contribute to reducing insurance premium costs over time, but will also ultimately save lives. In addition to "StormStruck(TM)", the company's current mitigation initiatives include the RenaissanceRe Wall of Wind, a state-of-the-art testing facility that simulates the effects of hurricanes on full-scale buildings to improve housing construction practices and identify effective mitigation techniques, and the Company's Hurricane Risk Mitigation Leadership Forum series of educational public policy events, which bring together academics, scientists, and other public and private sector representatives to advance hurricane risk mitigation efforts and awareness.
