Consistent Strategy

Identifying Opportunities

Leveraging Our Franchise

Recent Developments

Well-Positioned for the Future

Our focus and strategy remain the same

We focus on four key business areas

- Property Cat Reinsurance
- Specialty Reinsurance
- Individual Risk
- Joint Ventures and Strategic Investments

Four core strategies are key to our success

- Superior risk selection – underwriting discipline, proprietary tools, risk management culture
- Superior marketing – to get the business that we select
- Superior capital management – to match capital with risk
- Superior joint ventures- to maximize capital efficiency for clients, capital providers and RNR shareholders

Key Competitive Advantages

- **Discipline** - Disciplined underwriter with proven track record in hard and soft markets; history of identifying market inefficiencies
- **Talent & Culture** - Experienced management team; risk management culture; shared strategic vision
- **Use Of Technology** – Proprietary models to analyze and aggregate risk; large databases to support decision making; recognize limits of modeling
- **Relationships** - Excellent customer and broker relationships; recognized market leader; focus on adding value
- **Capital** - Strong capitalization; strong loss reserves; multiple channels by which to access capital; disciplined capital management

Discipline requires knowing when to grow and when to shrink

- Market conditions dictate writings – we decrease when conditions soften (e.g. late 90's), and grow when pricing improves (e.g. 2002)
- Specialty declined in 2006 as we stayed disciplined in a more competitive market, but there were attractive prospects to grow in our core Cat business

Managed Catastrophe and Specialty Premiums

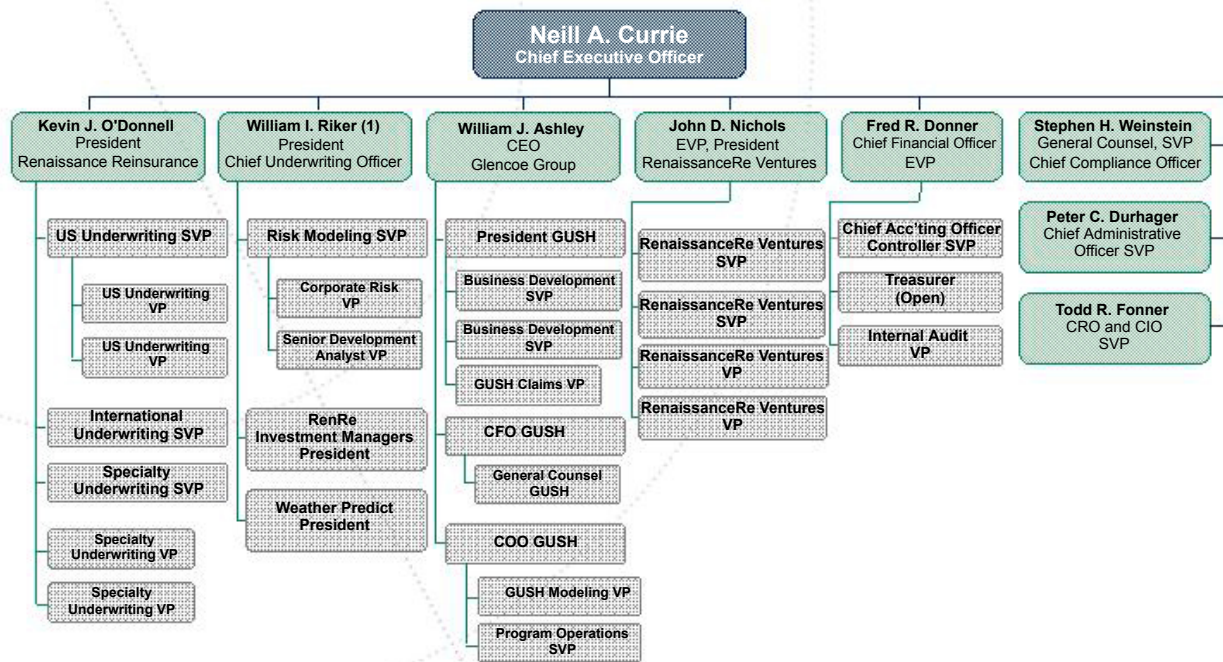

Projected as of Q2

Information concerning the reconciliation of Non-GAAP measures can be found at the end of this presentation.

*2007 projected Managed Catastrophe and Specialty Premiums are based on August 2007 premium estimates of managed catastrophe premiums down 5%, Individual Risk premiums down 10% and specialty reinsurance premiums written up 35%.

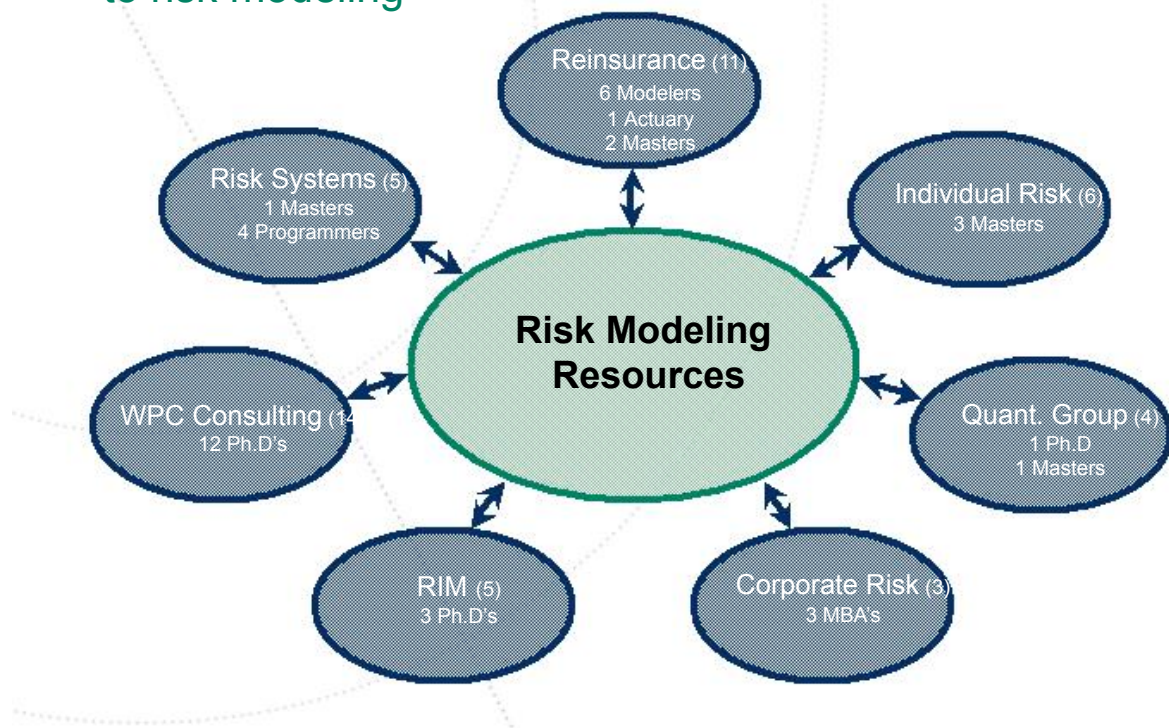

Our team is strong and key to our success

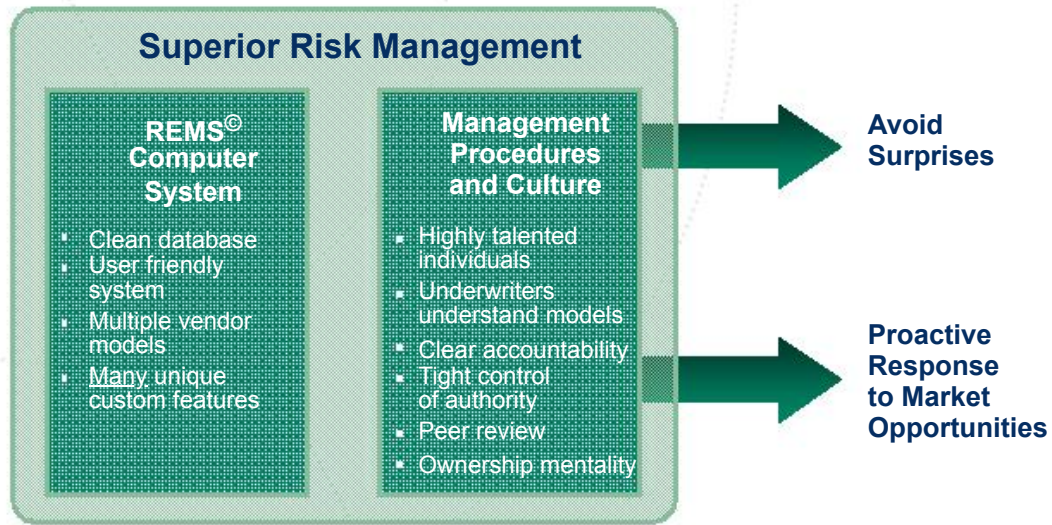

(1) Mr. Riker will remain with the Company until the end of 2007, and thereafter remain an employee serving in an advisory capacity until August 2008. Neill A. Currie, Chief Executive Officer of RenaissanceRe, will also assume the role of President.

We are differentiated in the resources we dedicate to risk modeling

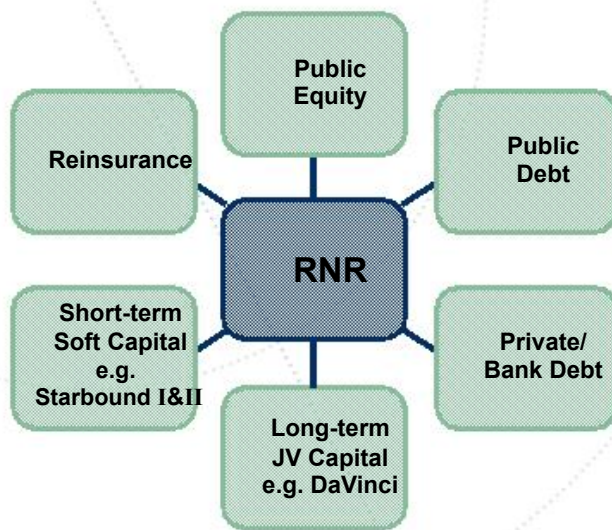

Risk management is more than modeling
– management expertise and corporate culture are critical

To manage capital we cultivate diversified and flexible sources

Multiple channels of access for capital is a competitive advantage

Retrocessional reinsurance capacity can be used to manage capital needs when available at economic terms

Bank debt can be used to manage capital quickly; short timeframe to access with no prepayment penalties

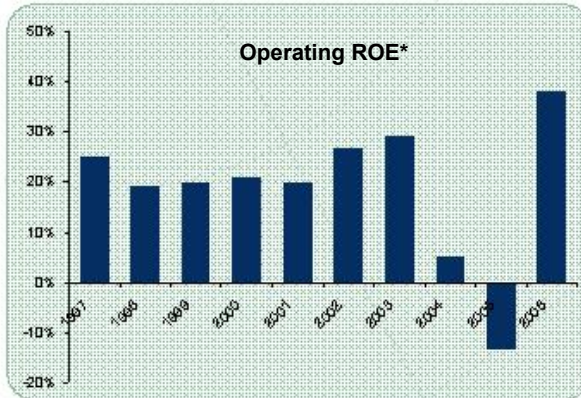

Joint ventures with private capital enhance our ability to manage capital flexibly; capital comes in and out at book value

Soft capital can be targeted short-term at the most dislocated part of the market to create capacity for incremental business

Our goal remains long-term growth in tangible book value per share plus accumulated dividends

- Tangible book value per share plus accumulated dividends has grown at an annualized rate of 17.5% from 1997 through 2006 – driven by a track record of strong Operating ROE
- While the 2004 and 2005 results were disappointing, 2005's result is consistent with our models that indicate we should expect to lose money every ten to fifteen years

* Information concerning the reconciliation of Non-GAAP measures can be found at the end of this presentation.

We are also well-positioned to address the new sources of capital that are entering our business

- Hedge funds, investment banks and securitization have increasingly become sources of risk-bearing capacity for property catastrophe risks → we believe further growth is inevitable
- These participants will change the way our business is transacted
 - Real-time trading of the underlying risk should emerge
 - Indices and other standardized formats for assuming risk will continue to gain market share
 - Capital will flow in and out of our business more quickly as market conditions change
- Our Ventures and RIM business units are important components of a strategy to keep pace with this change
- Our Ventures unit has developed key skills and capabilities as an intermediary for and transformer of Cat risk

Consistent Strategy

Identifying Opportunities

Leveraging Our Franchise

Recent Developments

Well-Positioned for the Future

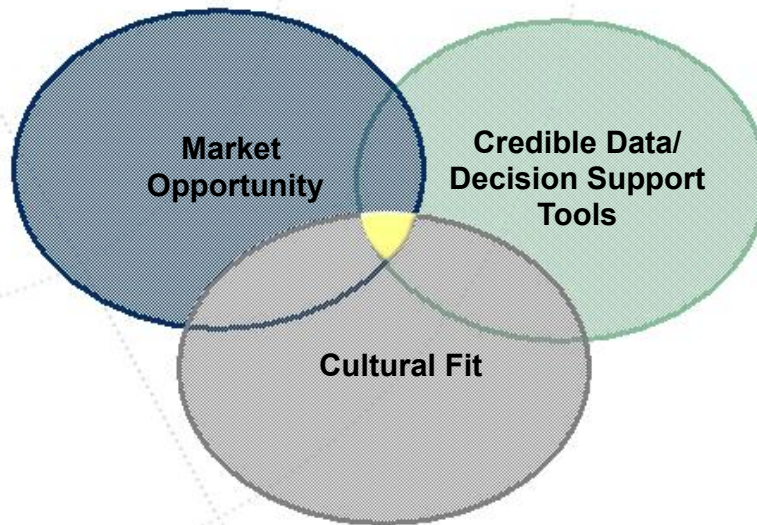

While our strategy will remain consistent, our business focus will evolve

- We operate today with the same culture and principles as when the company was formed
- By staying disciplined and focused we have been able to leverage our approach to build a more diversified business model
- We will continue to evaluate new opportunities and hope to add additional franchises, but are committed to maintaining our culture and our standards for growing book value per share
- We will only add businesses that earn attractive risk-adjusted returns and will exit businesses that no longer do the same

We screen new opportunities with a consistent framework

We look for new business opportunities that meet our return hurdles and fit our business model.

We've used this approach to grow from a Cat company to four successful business units

Gross written managed premium

Projected as of Q2

* Information concerning the reconciliation of Non-GAAP measures can be found at the end of this presentation.

Identifying Opportunities

Leveraging Our Franchise

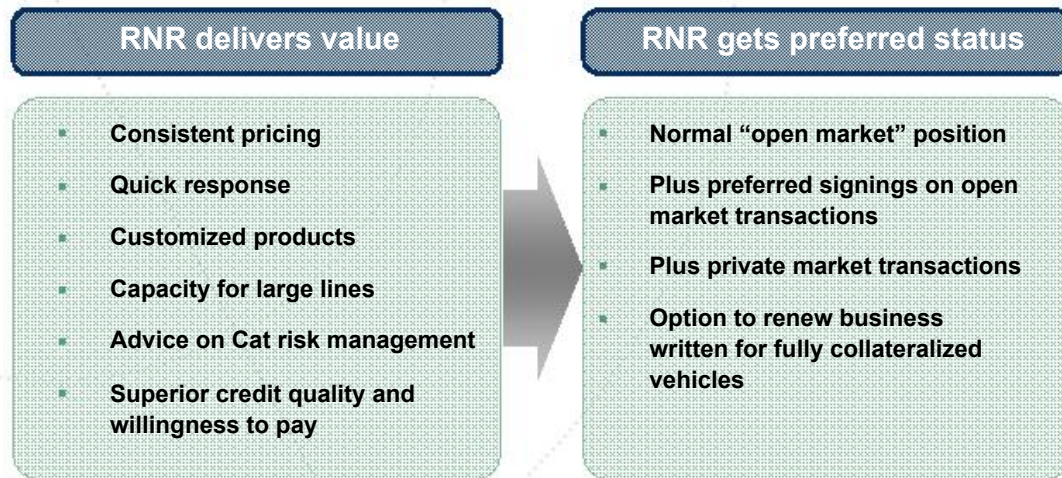

Recent Developments

Well-Positioned for the Future

We are leveraging off of our market leading franchise in Property Cat

Since 2001, we've built a more diversified Specialty Re portfolio while remaining disciplined in 2006's softening market

2001 Specialty Premium
\$77 million

2005 Specialty Premium
\$427 million

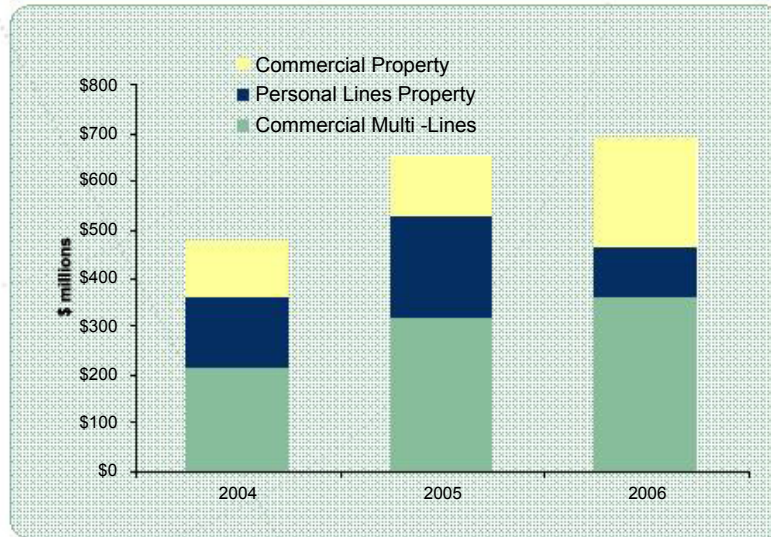

2006 Specialty Premium
\$222 million

Individual Risk has grown significantly

Individual Risk Gross Written Premium
by Major Type of Business

Individual Risk is selectively focused with a small group of partners

- Our Individual Risk Unit is focused on high-margin primary insurance and quota share reinsurance where we evaluate the “Individual Risk” (i.e. underwriting policies as distinguished from portfolios)
- We partner with other insurance companies and program managers (intermediaries) who source the risk and provide back office support
- We target a small number of partners with the following characteristics:
 - Leaders in their classes of risk
 - Large premium volume
 - Efficient back offices
 - Focused on data, systems and rigorous risk analytics
- We are developing proprietary risk modeling tools to track and evaluate exposures

Ventures has developed three areas of competence

	1) Property Cat Joint Ventures	2) Strategic Investments	3) Customized Reinsurance
Business	<ul style="list-style-type: none"> ▪ Leveraging RenRe's capabilities and reputation as the leading Property Cat reinsurer ▪ Very active role in the management, oversight and corporate governance of the entities 	<ul style="list-style-type: none"> ▪ Strategic investments to capitalize upon market dislocations ▪ Attractive businesses that we prefer to invest in rather than operate ▪ Continue to selectively consider large deals or other classes of business 	<ul style="list-style-type: none"> ▪ Custom packaging and selling of risk
Examples	<ul style="list-style-type: none"> ▪ Top Layer Re ▪ DaVinci Re ▪ OPCat 	<ul style="list-style-type: none"> ▪ Platinum (2002) – IPO spin-off of St. Paul's reinsurance operations ▪ ChannelRe Holdings Ltd. (2004) – Financial guarantee reinsurer in partnership with MBIA, Partner Re and Koch Financial ▪ Tower Hill (2005) - Recapitalization of Florida primary insurance companies 	<ul style="list-style-type: none"> ▪ Catastrophe Portfolio Participation CPPs - Participation in the results of our Property Cat book ▪ Starbound I & II (Florida) ▪ Timicuan Re (Florida) ▪ Cat Bonds ▪ Other

The period following the 2004 and 2005 storms highlighted the importance of Ventures' role within RenaissanceRe

- In 2006 and 2007 we executed four significant capital raises to bring capacity to our clients
- Our joint venture track record since 1999 demonstrates RenaissanceRe's ability to add value = generate alpha
- We expanded on our inventory of relationships with investors and advisors
- Our reputation with our clients, the option value of the renewal business and the fee income will benefit us for years into the future
- We remain differentiated in our approach and the resources we dedicate which leaves us well positioned

Recent Developments

Well-Positioned for the Future

RenaissanceRe

Our balance sheet and capital base are strong

* excluding \$3.9 billion of capacity at Top Layer Re

**Reflects the redemption of ~\$250 million of preference shares and funded debt, which were redeemed during Q1 2007.

RenaissanceRe is well-positioned

- Our balance sheet and capital base are strong - our capital position is stronger than at any point in our history
- Our culture and talented team remain a key competitive advantage
- We have strengthened our position over the last year as the market leader in property cat reinsurance; ahead of peers on risk analytics
- We are well positioned for the remainder of 2007 but we will remain disciplined and will not seek growth unless we find attractive opportunities

Safe Harbour Statement

Cautionary Statement under "Safe Harbor" Provisions of the Private Securities Litigation Reform Act of 1995:

Statements made in this presentation contain information about the Company's future business prospects. These statements may be considered "forward-looking." These statements are subject to risks and uncertainties that could cause actual results to differ materially from those set forth in or implied by such forward-looking statements. For further information regarding cautionary statements and factors affecting future results, please refer to RenaissanceRe Holdings Ltd.'s filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the year ended December 31, 2006 and its Form 10-Qs for the quarters ended March 31, 2007 and June 30, 2007.

This presentation includes certain non-GAAP financial measures within the meaning of Regulation G including "operating return on equity", "tangible book value per share plus accumulated dividends" and "gross written managed premium". A definition of such measures and a reconciliation of these measures to the most comparable GAAP figures in accordance with Regulation G is available in the Company's 2006, 2005, 2004 and 2003 Annual Reports and the February 6, 2007, May 1, 2007 and July 31, 2007 Press Releases which are located on the Company's website www.renre.com
