(Former name or former address, if changed since last report)

ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS

- (a) Not applicable.
- (b) Not applicable.
- (c) Exhibits.

The following exhibits are filed as part of this report:

\* Exhibit 99.1 is being furnished to the Securities and Exchange Commission (the "SEC") pursuant to Item 12 and is not being filed with the SEC. Therefore, this exhibit is not incorporated by reference in any of the registrant's other SEC filings.

ITEM 12. RESULTS OF OPERATION AND FINANCIAL CONDITION.

On July 27, 2004, RenaissanceRe Holdings Ltd. (the "Company") issued a press release (the "Press Release") announcing the Company's preliminary results for the quarter ended June 30, 2004. A copy of the Press Release is attached hereto as Exhibit 99.1 to this Form 8-K. This Form 8-K and Exhibit 99.1 hereto are each being furnished pursuant to Item 12 of Form 8-K and are therefore not to be considered "filed" with the SEC.

Non-GAAP Financial Measures

In addition to the GAAP financial measures set forth in the Press Release, the Company has included certain non-GAAP financial measures in the Press Release within the meaning of Regulation G. The Company has consistently provided these financial measurements in previous earnings releases and the Company's management believes that these measurements are important to investors and other interested persons, and that investors and such other persons benefit from having a consistent basis for comparison between quarters and for comparison with other companies in the industry. These measures may not, however, be comparable to similarly titled measures used by companies outside of the insurance industry, or by other insurers. Investors are cautioned not to place undue reliance on these non-GAAP measure in assessing the Company's overall financial performance.

The Company has included in the Press Release "net operating income available to common shareholders" of \$143.1 million in the second quarter of 2004 (as compared with \$130.5 million in the second quarter of 2003) and of \$281.0 million for the six-month period ended June 30, 2004 (as compared with \$260.7 million for the six-month period ended June 30, 2003). The Company

2

has also included in the Press Release "operating income per common share" of \$2.00 during in the second quarter of 2004 (as compared with \$1.84 per common share in the second quarter of 2003, and of \$3.92 for the six-month period ended June 30, 2004 (as compared with \$3.68 for the six-month period ended June 30, 2003). Each of these measures is a non-GAAP financial measure.

The Company uses "operating income" as a measure to evaluate the underlying fundamentals of its operations and believes it to be a useful measure of its corporate performance. "Operating income," as used in the Press Release and herein, differs from "net income," which the Company believes is the most directly comparable GAAP measure, by the exclusion of net realized gains and losses on investments. In the Press Release, the Company provides that "net income available to common shareholders" was \$116.2 million in the second quarter of 2004 (as compared with \$180.2 million in the second quarter of 2003) and was \$286.6 million for the six-month period ended June 30, 2004 (as compared with \$331.5 million for the six-month period ended June 30, 2003). In the Press Release, the Company also provides that "net income per common share" was \$1.62in the second quarter of 2004 (as compared with \$2.54 per common share for the second quarter of 2003) and was \$4.00 for the six-month period ended June 30, 2004 (as compared with \$4.68 for the six-month period ended June 30, 2003). In addition to the reasons for this presentation set forth above, the Company's management also believes that presentation of "operating income" is useful to investors because it presents the Company's results of operations without the variability arising from fluctuations in the Company's investment portfolio, which is not considered by the Company's management to be a relevant indicator of business operations.

The Company has also included in the Press Release "managed catastrophe premium" of \$175.5 million in the second quarter of 2004 (as compared with \$103.8 million in the second quarter of 2003) and of \$616.9 million for the six-month period ended June 30, 2004 (as compared with \$568.5 million for the six-month period ended June 30, 2003), which is a non-GAAP financial measure. The principal difference between "managed catastrophe premium" and "total catastrophe premium," which the Company believes is the most directly comparable GAAP measure, is the inclusion in "managed catastrophe premium" of catastrophe premium written by Top Layer Reinsurance Ltd., a joint venture which is accounted for under the equity method of accounting. In the Press Release, the Company provides that "total catastrophe premium" was \$150.3 million in the second quarter of 2004 (as compared with \$80.6 million during the second quarter of 2003) and was \$552.6 million for the six-month period ended June 30, 2004 (as compared with \$496.1 million for the six-month period ended June 30, 2003).

The Company has also included in the Press Release "summary of income from joint venture relationships" of \$37.9 million in the second quarter of 2004 (as compared with \$31.6 million in the second quarter of 2003) and of \$71.7 million for the six-month period ended June 30, 2004 (as compared with \$67.7 million for the six-month period ended June 30, 2003), which is a non-GAAP financial measure. The principal differences between "summary of income from joint venture relationships" and "other income and equity in earnings of unconsolidated ventures," which the Company believes is the most directly comparable

3

GAAP measure, are that the results of DaVinci Reinsurance Ltd., a joint venture the financial results of which are consolidated in the Company's financial statements, are reflected in "summary of income from joint venture relationships" as if reported under the equity accounting method, and that this presentation also includes fees earned on certain quota share cessions of catastrophe business by the Company which are reflected on its income statement as a reduction of acquisition and operational expenses. In the Press Release, the Company provides that "other income and equity in earnings of unconsolidated ventures" was \$4.2 million in the second quarter of 2004 (as compared with \$7.2 million during the second quarter of 2003) and was \$11.9 million for the

six-month period ended June 30, 2004 (as compared with \$12.7 million for the six-month period ended June 30, 2003).

The Company has also included in the Press Release "operating return on average common equity (annualized)" of 25.2% for the second quarter of 2004 (as compared with 30.2% for the second quarter of 2003) and of 25.4% for the six-month period ended June 30, 2004 (as compared with 31.6% for the six-month period ended June 30, 2003), which is a non-GAAP financial measure. The principal difference between "operating return on average common equity (annualized)" and "return on average common equity (annualized)," which the Company believes is the most directly comparable GAAP measure, is that "operating return on average common equity (annualized)" excludes net realized gains and losses on investments. In the Press Release, the Company provides that "return on average common equity (annualized)" was 20.5% in the second quarter of 2004 (as compared with 41.7% for the second quarter of 2003) and was 25.9%for the six-month period ended June 30, 2004 (as compared with 40.2% for the six-month period ended June 30, 2003).

The Press Release also sets forth a revised estimate of "operating earnings per common share" for 2004 in the range of \$6.95 and \$7.25 versus a previous forecast of \$6.10 to \$6.50, assuming normal loss levels for the balance of 2004. The forecast of "operating earnings per common share" for 2004 is a non-GAAP financial measure and excludes realized gains on investments of \$5.6 million for the first six months of 2004 and all potential realized gains and losses on investments for the final six months of 2004. The Company is unable to forecast "net income per common share for 2004", which the Company believes is the most directly comparable GAAP measure, as predictions as to the amount of realized gains and losses on investments for the final six months of 2004 are dependent on the performance of the financial markets.

#### INDEX TO EXHIBITS

Exhibit No. Description -----

99.1\* Copy of the Company's press release, issued July 27, 2004.

Exhibit 99.1 is being furnished to the SEC pursuant to Item 12 and is not being filed with the SEC. Therefore, this exhibit is not incorporated by reference in any of the registrant's other SEC filings.

#### [RENAISSANCERE LOGO OMITTED]

RENAISSANCERE REPORTS OPERATING INCOME OF \$143.1 MILLION FOR 2004 SECOND QUARTER; OPERATING EPS OF \$2.00 PER COMMON SHARE FOR THE SECOND QUARTER OF 2004 VS. \$1.84 FOR THE SECOND QUARTER OF 2003

\$116.2 MILLION NET INCOME FOR THE SECOND QUARTER OF 2004; EPS OF \$1.62 FOR THE SECOND QUARTER OF 2004 VS. \$2.54 FOR THE SECOND QUARTER OF 2003

ACHIEVES SECOND QUARTER 2004 ANNUALIZED OPERATING RETURN ON EQUITY OF 25.2%

INCREASES 2004 OPERATING EARNINGS ESTIMATES TO A RANGE OF \$6.95 TO \$7.25 PER COMMON SHARE, FROM PRIOR ESTIMATE OF \$6.10 TO \$6.50

PEMBROKE, BERMUDA, JULY 27, 2004 -- RenaissanceRe Holdings Ltd. (NYSE: RNR) today reported net operating income available to common shareholders of \$143.1 million for the second quarter of 2004, versus \$130.5 million for the comparable period in 2003. Operating income excludes realized investment gains (losses) of (\$26.9) million and \$49.7 million in the second quarters of 2004 and 2003, respectively. Operating income per common share grew to \$2.00 in the second quarter of 2004, from \$1.84 per common share in the second quarter of 2003. Net income available to common shareholders was \$116.2 million or \$1.62 per common share in the quarter, compared to \$180.2 million or \$2.54 per common share for the same quarter of 2003. The decline in net income resulted primarily from normal course investment activities, with the change in realized investment gains (losses) reflecting the broadly favorable investment environment of 2003 compared with the rising interest rate environment of this past second quarter.

James N. Stanard, Chairman and CEO, commented: "Our strong premium growth reflects two conflicting trends. First, Renaissance has preferred positions on various attractive reinsurance and insurance programs as a result of our strong customer relationships and credit ratings. Second, however, we continue to see price declines, and increasingly have had to turn down business that does not meet our return requirements. For 2004 we have increased estimates of our managed specialty reinsurance premium growth to over 30% compared to 2003; for our individual risk business we are maintaining our estimates of 30% growth; and for cat reinsurance we continue to expect gross managed premium declines of 5% or more. Our current expectation for 2005 is that we will continue to see growth in the individual risk business, but we will likely see a flattening of specialty reinsurance premium and further decreases in cat reinsurance premium."

Mr. Stanard further stated, "In light of the low losses in the first half of the year, we have raised our operating EPS guidance for 2004 to a range of \$6.95 to \$7.25 compared with our previous range of \$6.10 to \$6.50. These earnings estimates assume normal loss activity in the second half of the year."

SECOND QUARTER 2004 RESULTS:

#### PREMIUMS

Gross premiums written for the second quarter of 2004 were \$326.9 million, compared to \$212.6 million for the same quarter of 2003. Gross premiums written include \$215.3 million attributable to the Company's Reinsurance segment in the second quarter of 2004, compared to \$114.9 million in the comparable 2003 period; and \$111.6 million attributable to the Company's Individual Risk segment in the second quarter of 2004, compared to \$97.7 million for the same quarter of 2003. Net premiums written for the second quarter of 2004 were \$262.8 million,

1

compared to \$160.2 million for the same quarter of 2003. Net premiums written include \$153.2 million attributable to the Company's Reinsurance segment in the second quarter of 2004, compared to \$65.4 million for the same quarter of 2003; and \$109.7 million attributable to the Company's Individual Risk segment in the second quarter of 2004, compared to \$94.8 million for the same quarter of 2003.

Net premiums earned for the second quarter of 2004 were \$344.0 million, compared to \$275.5 million for the same quarter of 2003. Net premiums earned include \$235.9 million in net premiums earned for the Company's Reinsurance segment in

the second quarter of 2004, compared to \$208.9 million for the same quarter of 2003; and \$108.1 million in net premiums earned for the Company's Individual Risk segment in the second quarter of 2004, compared to \$66.6 million for the same quarter of 2003.

Premiums for the second quarter of 2004 include \$34.2 million of gross written premiums, \$38.3 million of net written premiums and \$53.7 million of net premiums earned by the Company's consolidated joint venture, DaVinci Re during the second quarter of 2004, compared to \$17.1 million of gross written premiums, \$19.0 million of net written premiums and \$46.7 million of net premiums earned by DaVinci Re during the second quarter of 2003.

Total managed cat premiums written, representing gross catastrophe premiums written by Renaissance Reinsurance and by related joint ventures, were \$175.5 million for the second quarter of 2004, compared to \$103.8 million for the same quarter of 2003, representing an increase of 69.1%. The increase was primarily due to timing differences. See the attached supplemental financial data for additional information regarding managed premiums.

#### JOINT VENTURE INCOME

During the quarter, income from the DaVinci joint venture and other fee income was \$37.9 million, compared to \$31.6 million during the second quarter of 2003. Of this, \$23.9 million reflects fees and profit commissions, compared to \$15.6 million in the second quarter of 2003, and \$15.7 million reflects equity in earnings of unconsolidated ventures and DaVinci, versus \$16.5 million in the comparable quarter of 2003.

#### UNDERWRITING RATIOS, RESERVE DEVELOPMENT

For the second quarter of 2004, the Company generated a combined ratio of 58.5%, a loss ratio of 35.1% and an expense ratio of 23.4%, compared to a combined ratio, loss ratio and expense ratio of 57.0%, 36.3% and 20.7%, respectively, for the second quarter of 2003. The increase in the expense ratio primarily relates to the increased scale of the Company's Individual Risk segment, which typically generates higher expense ratios than the Reinsurance segment. For the quarter, the Company's Reinsurance segment generated a loss ratio of 27.6% and an expense ratio of 16.3%, compared to 29.2% and 16.9%, respectively, during the second quarter of 2003. For the quarter, the Company's Individual Risk segment generated a loss ratio of 51.5% and an expense ratio of 38.8%, compared to 58.5% and 32.6%, respectively, during the second quarter of 2003.

During the quarter, the Company recorded favorable development on prior year reserves of \$29.7 million or a benefit of 8.6 percentage points to the Company's quarterly loss ratio. The Company's Reinsurance segment contributed \$27.4 million of favorable development, and the Company's Individual Risk segment contributed \$2.3 million of favorable development. Net recovered losses for the quarter were \$7.8 million. The Company had net recoveries in the second quarter due to the timing of collections on certain reinsurance recoverables. See the attached supplemental financial data for additional information regarding claims and claim expenses incurred and loss ratios by segment.

#### INVESTMENTS

Net investment income for the second quarter of 2004 was \$29.8 million, compared to \$34.1 million for the same quarter in 2003. Net investment income includes appreciation (depreciation) related to investments in hedge funds and private equity funds recorded during the second quarter of 2004 of (\$1.3) million compared to \$6.1 million of net appreciation recorded during the second quarter of 2003.

2

The Company's cash flows from operations were \$231.0 million for the second quarter of 2004.

### SHAREHOLDERS' EQUITY

Shareholders' equity attributable to common shareholders was \$2.3 billion at June 30, 2004, compared to \$2.1 billion at December 31, 2003. Book value per common share at June 30, 2004 was \$32.60 compared to \$29.61 per common share at December 31, 2003.

\_\_\_\_\_

This Press Release includes certain non-GAAP financial measures including "operating income," "operating EPS or operating income per common share," "annualized operating return on equity," "managed cat premium" and "summary of income from joint venture relationships." A reconciliation of such measures to the most comparable GAAP figures in accordance with Regulation G is presented in the attached supplemental financial data.

RenaissanceRe Holdings Ltd. will host a conference call on Wednesday, July 28, 2004 at 9:00 a.m. (EST) to discuss this release. Live broadcast of the conference call will be available through the Investor Section of RenaissanceRe's website at www.renre.com.

RenaissanceRe Holdings Ltd. is a global provider of reinsurance and insurance. Our business consists of two segments: (1) Reinsurance, which includes catastrophe reinsurance, specialty reinsurance and certain joint ventures and other structured relationships managed by our subsidiary Renaissance Underwriting Managers, and (2) Individual Risk business, which includes primary insurance and quota share reinsurance.

Cautionary Statement under "Safe Harbor" Provisions of the Private Securities Litigation Reform Act of 1995: Statements made in this news release contain information about the Company's future business prospects. (1) Reported GAAP presentation adjusted to reflect:

- fee income and the Company's interest in DaVinci as if DaVinci were accounted for under the equity method.
- other fee income on managed cat business which is reflected on the income statement as a reduction of acquisition and operational expenses.
- (2) Excludes fee income received on capital invested by RenaissanceRe Holdings.

#### COMMENTS ON REGULATION G

In addition to the GAAP financial measures set forth in this Press Release, the Company has included certain non-GAAP financial measures in this Press Release within the meaning of Regulation G. The Company has consistently provided these financial measurements in previous investor communications and the Company's management believes that these measurements are important to investors and other interested persons, and that investors and such other persons benefit from having a consistent basis for comparison between quarters and for the comparison with other companies within the industry. These measures may not, however, be comparable to similarly titled measures used by companies outside of the insurance industry. Investors are cautioned not to place undue reliance on these non-GAAP measures in assessing the Company's overall financial performance.

The Company uses "operating income" as a measure to evaluate the underlying fundamentals of its operations and believes it to be a useful measure of its corporate performance. "Operating income" as used herein differs from "net income available to common shareholders", which the Company believes is the most directly comparable GAAP measure, by the exclusion of net realized gains and losses on investments. In addition, the Company's management believes that "operating income" is useful to investors because it more accurately measures and predicts the Company's results of operations by removing the variability arising from fluctuations in the Company's investment portfolio, which is not considered by management to be a relevant indicator of business operations. The Company also uses operating income to calculate operating income per common share and operating return on average common equity. The following is a reconciliation of 1) net income available to common shareholders to operating income; 2) net income available to common shareholders per common share to operating income per common share; and 3) return on average common equity to operating return on average common equity:

The Company has also included in this Press Release "managed cat premium". "Managed cat premium" is defined as gross catastrophe premium written by Renaissance Reinsurance and its related joint ventures. "Managed cat premium" differs from total catastrophe premium, which the Company believes is the most directly comparable GAAP measure, due to the inclusion of catastrophe premium written on behalf of our joint venture Top Layer Re, which is accounted for under the equity method of accounting. Refer to supplemental financial data on gross written premiums.

The Company has also included in this Press Release "summary of income from joint venture relationships" which is a non-GAAP financial measure. The principal differences between "summary of income from joint venture relationships" and "other income and equity in earnings of unconsolidated ventures," which the Company believes is the most directly comparable GAAP measure, are that the results of DaVinci Reinsurance Ltd., a joint venture the financial results of which are consolidated in the Company's financial statements, are reflected in "summary of income from joint venture relationships" as if reported under the equity accounting method, and that this presentation also includes fees earned on certain quota share cessions of catastrophe business by the Company which are reflected on its income statement as a reduction of acquisition and operational expenses.
